SPRING/SUMMER 2021

AFTER A GREAT CLIMB THERE'S ALWAYS A BIG DESCENT

This Summer 21 collection was largely developed through the spring of 2020. More important things than cycling upended our lives. No racing, no group rides except for Zwift, no cleaning the chain or trying to make the disk brakes stop squealing. The smart trainer became as important for our mental health as for our fitness.

In many ways life as we knew it changed completely, but still we dreamed of the open road, of long descents in the Dolomites. We were locked up at home but focused on creating new innovative products to make your cycling faster, more fun, more comfortable.

There were moments when cycling seemed so insignificant, yet never have we ever cherished it more.

MEN'S SHORTS

BIBSHORT CHART

ROSSO CORSA

PROGETTO X² SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS AIR²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

PREMIO BLACK BIBSHORT	SUPERLEGGERA BIBSHORT	FREE PROTEKT RACE BIBSHORT	FREE AERO RACE 4 BIBSHORT	ENDURANCE 3 BIBSHORT	UNLIMITED BIBSHORT	COMPETIZIONE BIBSHORT	ENTRATA BIBSHORT
Innovatively engineered for ultimate long-distance comfort, support, speed and durability.	For our lightest-ever road short, we use the first seamless graduated-ventilation stretch woven fabric to make a short that's both impossibly light and cool yet supportive for the longest rides.	The performance short with double-layer side panels with Dyneema® for added protection and durability. Great for gravel, but also used by Team Ineos at the Tour de France.	Engineered for aerodynamics and WorldTour racing performance. The careful choice of fabrics and components and the obsessive attention to detail make this bibshort supremely comfortable even when you don't pin on a number.	Endurance-level comfort for every ride with Castelli's most comfortable seat pad.	Equally at home on tarmac or gravel, the Unlimited short knows no bounds. With four discreet hidden pockets it's ready for your next adventure.	This short is made to do everything right without overdoing anything. Quality fabrics, great fit, flat-lock stitching, KISS Air² seat pad, and leg grippers straight from our pro-level Free Aero Race 4 Bibshort.	Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² seat pad and eight-panel construction are brought together with an overall focus on durability.

PREMIO BLACK BIBSHORT

The Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bibshort ever. That's a big claim, but there's a lot of development in this short to back it up.
We've carried the less-is-more theme into the design, with minimalist laser-etched logos and subtle finishing. It looks as premium as it feels.

01

The first thing you might notice is what's missing: the seams and multiple panels. We engineered a new fabric that changes depending on the needs over various parts of the body.

WATCH THE VIDEO

02

The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support.

03

With this magical fabric we don't need to stitch separate panels together, which ensures more comfort and a better fit, as well as a sleek, sophisticated look.

04

The premium fabrics extend the bib straps.
The perforated back keeps you cool
and the edge is bonded so you don't feel
the thickness of a stitched edge.
The elastic straps have just enough modulus
(return) to hold your shorts securely in place
without cutting in to your shoulders.

05

The seat pad is our top-of-the-line Progetto X² Air Seamless pad. It's actually two separate components: a soft, stretchy Skin Care Layer next to your skin, which has the sole purpose of preventing any rubbing on your skin, and, under that, the Cushioning Layer, which features two separate densities of foam along with breathable perforated gel inserts under the ischiatic bones and perineum.

06

In the pelvis area, the compression and support increase to keep the seat pad and everything else in place, and the fabric gets thicker to avoid any embarrassing transparency issues.

LIGHT, COOL AND STRAIGHT OUT OF THE FUTURE

We've been pushing the envelope on lightweight shorts since 2011 but have butted up against the limits of compromising durability for ever lighter weight. We needed to step back and find a better way.
We examined what the short really needs to do: it needs to hold the seat pad securely in place while otherwise adding as little weight or fabric as absolutely necessary (without being transparent, obviously), and it needs to last a season of hard use. So we engineered a brand-new fabric using a woven rather than a knit that shaves 30% in weight for the same level of support and non-transparency. Then we worked with the world's leading mill to construct a gradient fabric that becomes increasingly lighter the farther down the leg it extends, with the last part weighing a mere 90 g/m² compared to normal short fabric, which weighs around 220 g/m².
This fabric, while being insanely light, maintains a decent durability along with excellent abrasion resistance, at least against the saddle. We don't guarantee it against unplanned slides across the asphalt, so please keep the rubber side down!
Note that while the short saves a mere 48 grams while dry, this means it also absorbs around 30% less moisture when you're sweating. So when you're sweating your way up the Alpe d'Huez you're actually saving closer to 150 grams.
This short doesn't compromise on comfort. We use our top Progetto X² Air Seamless seat pad, the spectacular striped mesh bibs from the Free Aero Race 4 Bibshort and a flat stretch woven leg gripper to keep everything in place.
But it's the finishing that sets this short apart. The logos are laser etched into the surface of the fabric for a very discreet rich tone-on-tone effect. With this short you don't need brightly colored logos to shout out that you've achieved the ultimate in cycling comfort and performance.

THE UNLIMITED TOUR DE FRANCE GRAVEL SHORT

—

This short was initially made specifically in response to a request from Chris Froome to help protect him through the first dangerous stages of the Tour de France. He wanted something to reduce road rash in case of a crash on those stages when everyone wants to be at the front and crashes are frequent.

We went back to the old trick, familiar to track riders, of wearing two pairs of shorts, knowing that Lycra® sliding on Lycra® is the best way to prevent or reduce road rash on your hip. In this case we've used our Vortex fabric from the Free Bibshort on the outside, which we know is already extremely durable in everything from sliding across the pavement to dog bites (yes, really!). Then we added an internal layer of a stretch woven fabric reinforced with a ripstop grid made from Dyneema®, the same miracle yarn used in rock climbing ropes, reinforcement in sails for the America's Cup, and in bulletproof vests. This will help prevent the inner layer from ripping in many situations.

We put this dual-layer construction over the side panel, which gives generous coverage for the hip and thigh in the event of a crash.

While originally created to help Tour de France riders survive the first few stages of the race better, this short may come in handy when you're riding on loose gravel or in your local criterium, or even if you just happen to fall off frequently and always slide on your hip like our favorite GCN presenter.

Beyond the protective aspect of this short, we've constructed it using the components and construction from our Free Aero Race 4 Bibshort, our top race bibshort that also gives remarkable comfort.

STRONG OUTER FABRIC

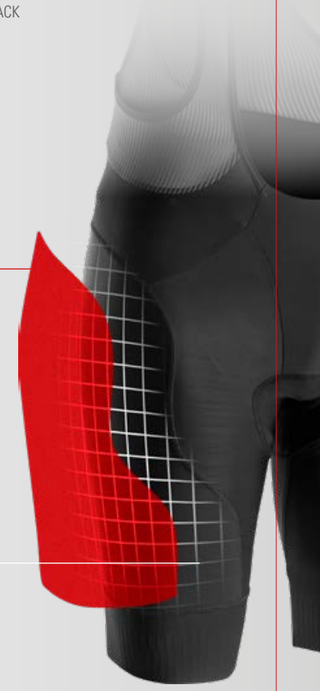
This sturdy fabric increases the chances that you can just brush yourself off and not have to throw away an expensive pair of shorts.

FABRIC-ON-FABRIC SHEAR

A major cause of the burns on your hip is the shear force when the head of the femur hits the ground and that force is absorbed by your body. We use two layers of fabric (a variation on the old track rider trick of wearing two pairs of shorts), which lets the shear force slide between the fabric layers.

DYNEEMA® REINFORCEMENT

The inner layer of fabric features a Dyneema® ripstop construction to help prevent the fabric from tearing in more serious falls. It's the same fiber used in climbing ropes and bulletproof vests.



METICULOUS EVOLUTION

The Free Aero Race 4 Bibshort is our top race short, which also means that it's insanely comfortable even if you never pin on a number.
The original Free Aero Race Bibshort was first introduced over a decade ago and has logged literally millions of kilometers under the backsides of our sponsored pro riders and has been the best-selling short both in the Castelli retail collection and in our Servizio Corse custom program. Over this time the short has undergone numerous updates and improvements in the never-ending quest to create the best short we can make. While the basic concept of a minimalist workhorse pro-level comfortable race short remains, every single fabric, component, stitch and construction method has been updated and improved over time.
The fourth major generation of the short features the updated Progetto X² Air Seamless seat pad. This pad separates a soft, stretchy skin care layer that moves with your body from a generously padded cushioning layer that replicates the form of your saddle. Eight-hour rides are no problem.
Of course the fabrics are premium, made to our specifications by Italy's best fabric suppliers. The Forza fabric on the inner leg features 38% Lycra® content for perfect fit, while the Vortex fabric on the side panels is dimpled for aerodynamics. And it's held in place by the latest iteration of our seamless flat Giro leg gripper.

SAVILE BLUE

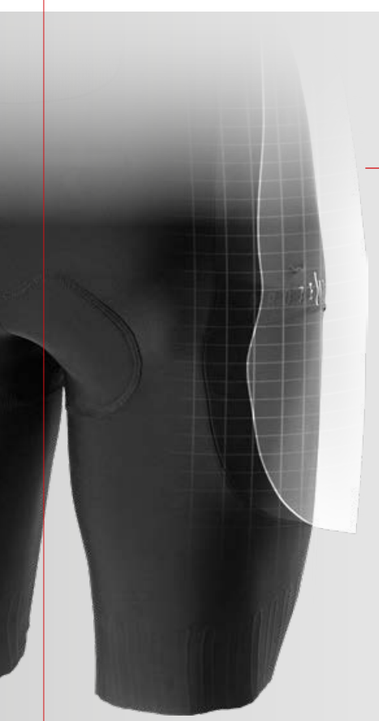
The main story of this short is the use of our renowned top-of-the-line Progetto X² Air Seamless seat pad in an otherwise traditional short, but in fact every little detail has been obsessed over to ensure your comfort on your next long endurance ride.
A great pad is useless without great fit. The seams are placed around the hip area to create a perfect shape on the bike. The Endurance Evolution fabric has a soft hand while providing good compression and excellent moisture management. And it's all held in place with the amazingly comfortable GIRO³ leg gripper.
This short offers exceptional value and is ready to deliver lasting comfort on your longest rides.



EXTREMELY DURABLE LYCRA®

This sturdy fabric increases the chances that you can just brush yourself off and not have to throw away an expensive pair of shorts.

FABRIC-ON-FABRIC SHEAR

A major cause of the burns on your hip is the shear force when the head of the femur hits the ground and that force is absorbed by your body. We use two layers of fabric (a variation on the old track rider trick of wearing two pairs of shorts), which lets the shear force slide between the fabric layers.

- 200 g/m² nylon/Lycra® fabric with best-in-class abrasion and tear resistance
- 2 mesh rear pockets built into mesh bib straps
- Double-layer side panels reduce abrasion if you fall, while also creating 2 useful side pockets
- Raw-cut leg ending with vertical silicone grip strips to hold leg in place
- KISS Air² seat pad for long-distance comfort

010
BLACK

DON'T LIMIT YOURSELF

We made this short to meet Castelli's high standards for comfort and performance in a cycling short while adding a few extra features that come in handy for riding on any surface. You'll find our normal exceptional fit as well as the KISS Air² seat pad, which provides generous anatomically placed padding with an exceptionally soft top layer.

What makes this short special is the extremely durable Unlimited Lycra® fabric. It has higher abrasion resistance and tear resistance while not compromising on stretch, moisture management or comfort.

In addition, we use double-layer side panels for the old track rider's trick of fabric-sliding-on-fabric should you fall. This short isn't really meant to be indestructible, but it significantly increases the chances that sliding out on gravel will mean you need to just brush yourself off rather than having to buy a new pair of shorts.

That second layer on the side panel also makes for convenient side pockets, with a flap over the top to prevent the contents from falling out.

For added convenience while riding on and off road, you have two mesh pockets on the lower back that compress gear next to your body to keep it from bouncing around,

This short adds durability and storage without compromising comfort — for unlimited amounts of fun.

IT JUST WORKS RIGHT

Castelli has innovation in our DNA, and we've brought you most innovations in cycling shorts over the years: the first Lycra® shorts on the market, the first synthetic seat pads, the first anatomical seat pads, the first minimalist and flat bib straps, and the first flat leg grippers. All these have become industry standards, and we keep pushing and innovating in our high-end shorts.
The Entrata short is where we bring all that knowledge and experience into a short that just plain works. The fabric is just the right weight with just the right stretch and with a matte finish that looks just right. The KISS Air² seat pad is just right, as is the GIRO³ leg gripper. And the short fits just right because we obsess over the fit of every short we make.
We wanted this short to be just right for many years to come, so we stitch on the logos and stitch in the reflective panels on the back. There are no logos to peel off, and everything is stitched down securely.
This short gives you every reason to step up to Castelli.

THE ULTIMATE RACE SUIT

The Sanremo Speed Suit revolutionized the way pro riders dress when we invented it back in 2011, and we're still surprised that every other manufacturer has simply copied the Sanremo front opening rather than trying to come up with something original.

While the front opening is the most visibly unique feature, we've worked on every other detail to make this the perfect race suit. It's aero thanks to our CFD-based seaming and wind-tunnel selected fabrics. It's comfortable thanks to the body fabrics that will keep you drier and cooler than the simple Lycra® fabrics used by some other companies. The lower portion of the suit is our Free Aero Race 4 bibshort, making this our most comfortable suit for your longest, toughest race days.

Besides the new fabrics and seam placement, we've also worked on the pockets to make them better for racing. They're somewhat narrower for better aerodynamics, but there are now two big pockets instead of three small ones, so they're easier to access in racing.

New for 2021 the Castelli collection version of the Sanremo Speed Suit is in dyed fabrics instead of sublimation printed fabrics like the pros use. The colors are richer and more saturated, making you look even better than a pro.

WHAT IT IS

Simply engineered to be the fastest suit for racing against the clock.

PRODUCT FEATURES

- Pure speed equipment, as seen on Team Ineos
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Tight fit exactly like we provide to Team Ineos and the Italian national team
- Reduced seaming for maximum aerodynamics
- No-sew race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

YOU'LL THANK THE UCI

If we could we would keep this suit an industrial secret, a competitive advantage for our pro riders. But the UCI rules say we have to make it commercially available to keep the playing field even for all teams. So here it is.

We don't want to give away too many of the secret details that make it so fast, but there are a few details that you can see: amazing fit in the TT position, slippery fabrics, reduced seaming, and long legs with flat endings and flat grip tape to keep them in place. The long sleeves have a thumb loop to prevent them from riding up. There's a window pocket on the back so you can place the race number out of the wind — and the window stretches and breathes, unlike others on the market.

Hundreds and hundreds of hours have gone into engineering this suit. We don't say how many because we haven't even tried to keep count. We have access to the test facilities at the Norwegian Technical University in Trondheim, where our detailed process addresses fabric selection and suit construction. This suit was made for WorldTour riders. It's optimized for speeds above 45 km/h and for extreme positions. At those speeds and with the right setup it's the fastest suit we've ever tested. Thanks, UCI.

UNLIMITED AND UNCOMPROMISING

We're not crazy about the word "gravel." We love riding on it, but we don't like the way the cycling industry acts like it's a new sport. We prefer to just call it cycling because we're still riding bikes, we're still working up a sweat, we're still having fun and we're still beating up on our friends.
Castelli's approach to all-surface riding is called Unlimited. Our riding now is a mixture of paved and unpaved surfaces, but we're riding just as hard and demanding just as much from our clothing.
The Unlimited Jersey uses everything we know about moisture management, fit, shape, and the convenience of zippers that open easily and pockets that are the right shape and in the right place. But on this jersey we took the extra step of using fabrics that better resist snags from tree branches or vines that you'll find on your favorite trail. The main body fabric is a polyester knit with good stretch and moisture management but better durability than the typical fragile fabric that's OK on the road. Then on the sleeves, shoulders and back panel we use a stretch woven fabric that is extremely resistant, since this is the area that most often gets snagged.
You'll just be comfortable like you always are in Castelli, but you'll look good all season long.

070
DARK STEEL BLUE/CHARTREUSE

089
FOREST GRAY/RED

YOU WON'T EVEN NOTICE

We've been riding our bikes on gravel since before it was a thing, and we've always done it in our normal Castelli jerseys. The only complaint was that the occasional branch or vine could pull the delicate fabrics, and after a few rides the jersey wouldn't look exactly pristine.
That's what we focused on with the Polvere Jersey. It compromises nothing in terms of fit, comfort, moisture management and light weight, but we've used fabrics that offer additional protection from snags. The arms and shoulders are most exposed, and here we've used a snag resistant fabric that fits great yet is extremely protective. The main body is closer to a traditional jersey fabric but fared best in our snag and Velcro tests.
We don't call this a gravel jersey because it's equally at home on the asphalt, but if you do take it on your favorite trail it'll hold up better than any road jersey, and better than most off-road gear.

THE FIRST AERO JERSEY PROJECT WAS CALLED SPLIT SECOND

—

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton.

We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race 6.0 benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from Team Ineos riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition.

Version 6.0 is our most aero and most comfortable Aero Race Jersey yet. But we're already at work on 6.1...

LIGHT, DRY AND FAST

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey with Team Ineos for the rigors of pro racing in hot weather and in the high mountains. It's extremely lightweight and features open fabrics for additional airflow and quick drying. And by using the same patterning as the Aero Race Jersey, we make sure you get maximum aerodynamics as well.
Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture. And you'll certainly appreciate that the fabric on the back blocks more than 90 percent of UV rays.

THE EPIC RIDE JERSEY

—

This is the jersey for your big days in the saddle. It's a high-performance piece of equipment that values comfort and utility, not just pro race aerodynamics and minimalism.
The main body fabric is a polyester blend with just a bit of Lycra® for perfect fit and moisture management. It's actually based on the same Velocity Rev3 fabric we use in our Aero Race Jersey, but we gave it about 20% more body for all-around performance and to better support the pockets. We use a 3D mesh through the back, along with a flat mesh on the side panels. The pockets are bit larger than those on our race jerseys, for extra carrying capacity, and there's a zippered pocket for keys and money. We use a YKK® Vislon® zipper for easiest sliding when closing or opening and our Giro³ elastic waistband to distribute the load. The sleeves are cut long.

MAISON JERSEY 4521017

SIZES / WEIGHT / TEMPERATURE RANGE

XS-3XL | **141 g** (Large) | **18°-38°C / 64°-100°F**

WHAT IT IS

Reinterpreted traditional fabric textures are the inspiration for the Maison graphic used on our Competizione jersey model. It's the ideal all-around jersey for all your riding, offering comfort in training and speed in fast group rides. The fit is not overly tight, and the fabrics are stretchy enough to accommodate all body shapes.

PRODUCT FEATURES

- Strada micro mesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels and pocket for perfect fit
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

070
DARK STEEL BLUE

The Maison jersey graphic dips into traditional fashion fabric designs, from houndstooth to paisley to a stylized glen plaid. All with a unique twist, and applied to our all-around performance jersey construction that we call Competizione. The main body fabric has a 7% Lycra® content for horizontal stretch combined with limited vertical stretch so your pockets don't sag. We use our Tailwind dimpled stretch fabric on the sleeves, side panels and pockets for stretch and maximum ventilation. Finishing details are top notch, including the YKK® Vislon® zip and silicone gripper elastic at the waist to keep the jersey from riding up.

THEY'LL THINK YOU BOUGHT IT JUST TO LOOK GOOD

This is the jersey that brings Castelli's fabric and construction engineering together in one of the most refined jerseys we've ever made. The goal with this jersey was to make it as light as possible without sacrificing transparency, sun protection and convenient features like a zippered key pocket. We've brought in a new fabric that we call Oltre, which roughly translates to "beyond," and it really goes beyond what you normally find in a jersey, with the horizontal stripes giving great breathability and stretch while providing good support for the pockets.

The jersey will do double duty in your wardrobe: It's the jersey to reach for on hot days or big climbing days in the mountains. But it's also the jersey you'll pull out when you just want to look good, thanks to the no-sew construction around the sleeves and hem and the close attention to detail in every stitch, seam and component.

It's designed with a fit that is close to body but slightly more relaxed than our race jerseys.

PAVÉ JERSEY 4521018

SIZES / WEIGHT / TEMPERATURE RANGE

XS-3XL | **175 g** (Large) | **16°-35°C / 61°-95°F**

WHAT IT IS

Cycling's sacred ground, the pavé, is knit into the custom Castelli fabric. There's nothing else like it. A sublimated fade over the jacquard knit adds to the multiple layers of depth in this performance jersey.

PRODUCT FEATURES

- Jacquard-knit extra-wicking stretch fabric with cobblestone design taken from the Oude Kwaremont
- 2-way stretch for great fit while holding pockets in place
- Sublimated overprint fade
- YKK® Vislon® zipper
- 3 rear pockets

420
MARINE BLUE

And now for something totally different. For the cobblestone lover in all of us, we've brought the Oude Kwaremont climb into a jacquard-knit fabric. It took a while to get there because we weren't willing to compromise fit, stretch, moisture management or comfort. It still feels like a Castelli jersey, but with the design actually integrated into the fabric. To bring extra depth to the jersey we added an overprint to fade the color, so you'll definitely stand out next time you ride the pavé.

IT NEVER GETS EASIER; YOU JUST GO FASTER

We've incorporated a lot of our pro racing technology into this all-around performance jersey. The base fabric is a textured 100% polyester that provides excellent wicking to keep you dry in a wide range of conditions. We've wrapped our AirMesh fabric around the shoulders and down into the sleeves and side panels to give extra stretch so the jersey doesn't constrict or make you look like you should have bought a size larger. The mesh side panels have a Castelli outline print, while the overall graphic stays clean and sophisticated.

PRO-LEVEL BASE

The pro cyclists we work with know the importance of the right base layer for the conditions. The Pro Mesh is made for the widest range of conditions and is designed to keep you dry in cool to mild temperatures. We'll even put it under a Flanders Warm base layer in the coldest conditions. We've given it a graphic print so you can show off that you have something special when you open your jersey zip.

CASTELLI COLLECTION

ACTIVE COOLING SLEEVELESS

4520030

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XXL | **84 g** (Large) | **25°-35°C / 68°-95°F** | POLARTEC® Delta™

WHAT IT IS

Made to hold a bit of moisture close to your skin to actively cool you on hot days through evaporative cooling.

PRODUCT FEATURES

- Base layer to cool you on hot days
- Polartec® Delta fabric features regulated drying so that the evaporative effect cools your core
- Sleeveless design with minimalist construction
- Sublimated overprint

870
SILVER GRAY

COOLING TECHNOLOGY

By using hydrophilic and hydrophobic yarns, this base layer holds a bit of moisture next to your body while allowing free airflow through the fabric, thanks to the special open knit. You get evaporative cooling directly on your skin. We recommend using this with our coolest jerseys, like the Climber's or Superleggera, though it will work under any breathable jersey.

SM/LX/2XL | **45 g** (Large) | **15°-25°C / 59°-77°F**

WHAT IT IS

Seamless for comfort and surprisingly warm for its weight, this base layer is ideal in cool conditions, providing excellent moisture management.

PRODUCT FEATURES

- 84% polyester / 16% polypropylene yarns provide soft, warm wicking and exceptional stretch fit
- Seamless construction means extra comfort
- Lighter weight on side and back
- Wide neck opening to fit under short-collared jerseys

001
WHITE

TIME TO GIVE SEAMLESS BASE LAYERS ANOTHER TRY

Seamless construction promises stretch and comfort, but most base layers on the market have a nylon and Lycra® mix that feels comfortable when you put it on but then ends up feeling wet when you're actually riding, and you freeze when you stop. We've worked hard to make this Core Seamless base layer keep you warm and dry, thanks to the addition of polypropylene and polyester yarns, while not compromising the stretch comfort of seamless. We think we've found the sweet spot that also provides a nice level of warmth for cool to cold days.

XS-2XL	**44 g** (Large)	**10°-25°C / 50°-77°F**

WHAT IT IS

Made to keep you dryer in cool to warm conditions, this base layer moves moisture away from the skin.

PRODUCT FEATURES

- 100% polyester 3D mesh fabric
- Reduced seaming at shoulders for extra comfort
- Wider collar to fit under aero jerseys
- Flat waist hem to lie flat in shorts

001
WHITE

001
WHITE

This is the piece our pros requested for those in-between conditions where the Prosecco base layer is too warm and the Core Mesh isn't quite enough, like Spain in February or Belgium in April. You're not looking for warmth from your base layer, just something to move the moisture away from your body and help your race jersey perform. Our 3D mesh fabric creates dead air space next to your skin, while the polyester capillary action moves sweat away.

CASTELLI COLLECTION

SM/LX/2XL	**71 g** (Large)	**20°-40°C / 68°-104°F**

WHAT IT IS

Our lightest and airiest base layer wicks moisture away from your skin, while the open mesh helps hold the jersey up and away from the skin. It's good for warm conditions, and some riders even like it on a hot day, as it allows airflow between the jersey and skin.

PRODUCT FEATURES

- Magic Mesh 90% polyester, 10% Elastane wicking fabric
- Minimalist lightweight construction
- Reduced seams for maximum comfort

001
WHITE

001
WHITE

WARMER CONDITIONS

This is our base layer for the warmest conditions. The mesh is open to create a space on the skin for sweat to evaporate. The 10% elastane content makes it very stretchy and helps in the moisture retention so that you're always getting evaporative cooling.

PRIMALOFT

WHAT IT IS

Made to keep you dry in cool conditions, this base layer features body mapping construction with Prosecco hydrophilic treatment on the main body fabric and lighter-weight PrimaLoft® fabric aligned to the parts of the body covered by the bibtight straps.

PRODUCT FEATURES

- Proprietary stretch rib knit 100% polyester main body fabric with Prosecco hydrophilic treatment for maximum wicking
- PrimaLoft® panels at waist and back where bibtight covers upper body, to reduce uneven insulation
- Crew neck closure to fit under short-collared jerseys

010
BLACK

010
BLACK

The first goal of this base layer is to move moisture away from your skin while adding minimal insulation for those cool days when your riding intensity is high enough and your outer layers are warm enough.
The areas covered by the bibtight around the waist and up the back can get hot, so we used a lightweight PrimaLoft® fabric to help even out the temperature.
This base layer works best when in contact with the skin, so both fabrics are very stretchy and the cut is slim.
On extremely cold days we'll use this as a first layer under a Flanders Warm second base layer, or under a thermal jersey. It's very effective at moving sweat away from the body.

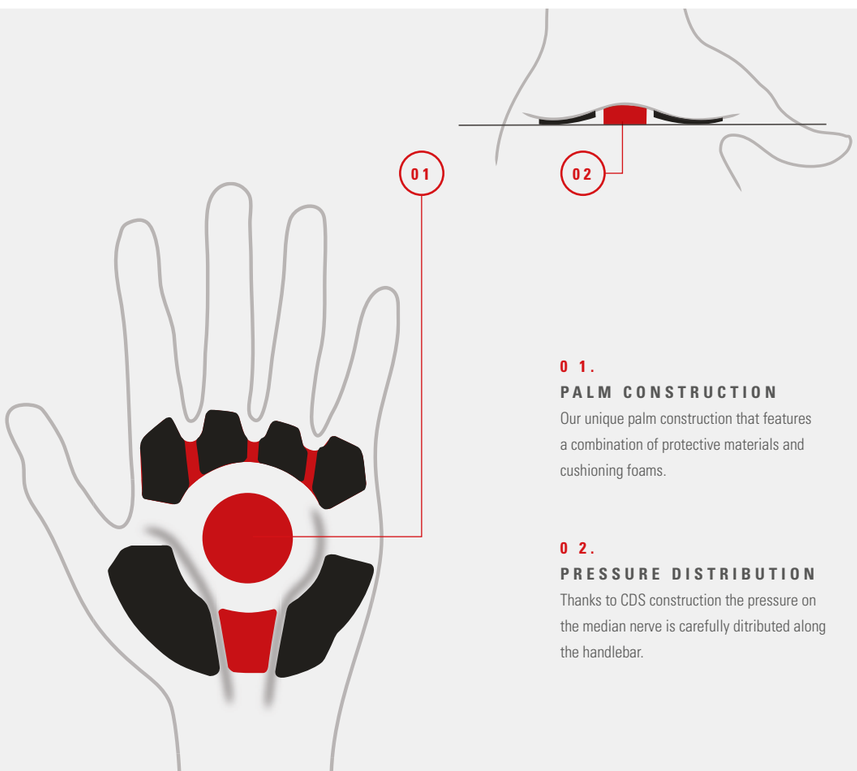
CDS
CASTELLIDAMPINGSYSTEM

The Castelli Damping System was designed and engineered to address a common problem many riders suffer from: discomfort and occasional numbness in the hands associated with extended periods of time gripping the handlebar. We carefully mapped key parts of the hand in order to create optimal protection from steady road vibrations. The result is our unique palm construction that features a combination of protective materials and cushioning foams. The Castelli Damping System is applied across many styles in our glove collection and provides outstanding control and comfort during training or racing.



01.
PALM CONSTRUCTION
Our unique palm construction that features a combination of protective materials and cushioning foams.

02.
PRESSURE DISTRIBUTION
Thanks to CDS construction the pressure on the median nerve is carefully ditributed along the handlebar.

COMFORT MEETS VERSATILITY

These gloves were designed for those days when you're looking for a little protection from brisk early morning temperatures or from the rugged vibrations of a gravel road but you don't need anything more. The side stretch panels make them super easy to get on and off, and they are incredibly compact, so they're also perfect for those days when you'll start with gloves and stash them in your jersey pocket mid-ride.

A BETTER ARM WARMER

With Team Ineos we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

SURPRISINGLY USEFUL

We can officially only rate these warmers at UPF 50+, but in our laboratory tests they actually blocked 99.8 percent of damaging UV rays. We used a polyester base that is not only more effective than nylon at blocking UV rays but is also much better at keeping you dry, which means these arm sleeves are better in both cooler and warmer conditions. We've kept the construction very clean to eliminate seams that can rub, and we used our double-sided silicone elastic to make sure they stay in place. They fold up extremely small, so they're great to stick in your pockets for your next big mountain day.

IDRO PRO 2 JACKET 4519079

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **158 g** (Large) | **6°-20°C / 43°-68°F**

WHAT IT IS

The Idro Pro Jacket is workwear for the pros. If your job (or passion) means long rides in inclement weather, this jacket is just what you need. It uses the amazing GORE-TEX® SHAKEDRY™ fabric with extra features to make it more functional for all-day use, yet it still packs away into a jersey pocket.

WHEATHER CONDITIONS

PRODUCT FEATURES

- GORE-TEX® SHAKEDRY™ 2-layer ultralight waterproof breathable fabric
- Stretch Gore-Tex® water- and windproof inserts at elbow, shoulder and side panel
- Stretch wrist closure eliminates flapping fabric yet facilitates ingress/egress
- YKK® Vislon® waterproof zipper
- 2 external rear pockets
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective trim
- Packs up small to easily store in jersey pocket

010
BLACK

THE ULTIMATE GORE-TEX® CYCLING JACKET

Light, packable, highly breathable, durably waterproof and aero fitting. This is the first piece that brings all those features together into a jacket made for the rider who has to (or choses to) ride in any weather conditions. When GORE-TEX® introduced SHAKEDRY™ technology two seasons ago, we immediately saw the opportunity to make waterproof jackets lighter than ever. And then we tested it and realized that we're also able to make them more breathable than ever. Now, thanks to Gore's new Topo inserts we're able to bring a close fit and extreme packability to a jacket that's fully protective for all-day riding in the rain. We've given it two external pockets so you don't have to unzip to reach your jersey pockets. We've given it a longer tail to shield you from the spray coming off your back wheel. We've given it a soft neck liner. And we've given it reflectivity for safety. Compared to our Idro 2 jacket, this is more of a workhorse jacket. It's made for the rider who leaves his house for an all-day ride in the rain, for the rider whose jacket is a necessity and not a piece that stays in a pocket until it's needed.

ROSSO CORSA

IDRO 2 JACKET 4518030

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **107 g** (Large) | **6°-20°C / 43°-68°F**

WHAT IT IS

The Idro 2 Jacket provides 100% rain and wind protection with best-in-class breathability in the smallest package we can make. Even more compactible than the Idro Pro, this Idro jacket is made as small as possible so you always have it with you.

WHEATHER CONDITIONS

PRODUCT FEATURES

- The lightest Castelli GORE-TEX® Product ever made
- Durably waterproof and long-lasting weather protection backed by the GUARANTEED TO KEEP YOU DRY™ promise
- GORE-TEX® SHAKEDRY™ product technology
- Folds into just half a pocket
- YKK® waterproof Vislon® zipper
- Anatomic wrist closure
- Reflective Castelli wordmark

010
BLACK

THE SMALLEST, LIGHTEST GORE-TEX® JACKET

This jacket can change the way you ride. It's so small you'll find yourself stuffing it in your pocket for rides with even a remote chance of rain, just because it takes up so little space. And you'll be extending your rides into conditions when rain is in the forecast because you know you'll be perfectly covered. Using Gore's newest SHAKEDRY™ two-layer fabric, we constructed the most minimalistic jacket that still covers your needs. It fits over your jersey and vest. It covers your tail. It has a tall collar. It has a YKK® Vislon® waterproof zipper. It has reflectivity. But that's about it. Compared to the Idro Pro jacket, this one is made to go in your pocket for every ride, yet still provide the essential protection when called into duty.

CASTELLI COLLECTION

GOCCIA JACKET 4520511

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **204 g** (Large) | **5°-14°C / 41°-57°F**

WHAT IT IS

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you're meeting your mates at the café.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m²/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

030
DARK GRAY

656
FIERY RED

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability.
We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great.
This is meant to be a rain shell worn over a jersey, so we've forgone the external pockets and kept the construction simple to minimize seams. We've given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

CASTELLI COLLECTION

EMERGENCY RAIN JACKET 4517500

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **175 g** (Large) | **5°-18°C / 40°-65°F**

WHAT IT IS

Fully waterproof yet very compact, this is the jacket to stuff in your pocket when rain is in the forecast. It provides emergency protection, though not with the same level of breathability and packability as our Idro jacket.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Innovative "gutters" drain water away from hands and off back
- Waterproof zipper and seam sealing keep all water out

032
YELLOW FLUO

READY IN CASE OF EMERGENCY

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. This jacket is an emergency piece, so we knew you wouldn't want to break the bank with it, but the only real compromise compared to our top-of-the-line offerings is in breathability. We didn't make this for an all-day rain ride, but it's just right for your next emergency.

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to reinvent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era.
This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

CASTELLI COLLECTION

ARIA VEST

4520057

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **75 g** (Large) | **12°-20°C / 54°-68°F**

WHAT IT IS

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

DARK GRAY

01/21

870
SILVER GRAY

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

CASTELLI COLLECTION

SQUADRA ER JACKET

4517507

SIZES / WEIGHT / TEMPERATURE RANGE

XS-3XL | **128 g** (Large) | **10°-16°C / 50°-61°F**

WHAT IT IS

The best jacket is the one you have with you, so we made it easy to bring a shell on every ride. This incredible value jacket provides a windproof layer for a long descent or cool morning start. It's water repellent but not waterproof.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Minimalist shell jacket for that long Dolomite descent or unexpected rain shower
- Coated 100% polyester ripstop fabric is windproof and moderately water-resistant
- Rear vent opening
- Camlock® zipper
- Rear reflective detailing

NANO FLEX PRO 2 BIBTIGHT

4518515

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **376 g** (Large) | **-2°-10°C / 28°-50°F**

progetto X² | RAIN OR SHINE | NANO FLEX | TEAM INEOS OFFICIAL PARTNER

WHAT IT IS

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois. Reflective splashproof panels make it the choice for wet roads as well as night rides.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Nano Flex Xtra Dry fabric brings higher level of water protection and warmth
- Double-face knit keeps you warmer because less wind comes in
- Reflective waterproof splash guards on inside of lower legs
- Double layer over backside protects from water coming off rear wheel
- Fewer seams to reduce chance of water coming in
- Lie-flat bib construction
- Progetto X² Air seamless pad for long hours in the saddle

RAIN OR SHINE BIBTIGHT

Introducing Nano Flex Xtra Dry fabric. Eight years have passed since Castelli pioneered nanotechnology coatings in cycling clothing to provide a higher level of water protection without sacrificing breathability or stretch. We never stopped working on improving the fabric, and after numerous small improvements we're ready with the first major update. The base fabric is a tighter-knit double-layer construction, and the water repellency treatment is improved to offer even more protection. We're not quite there yet on our goal of bringing full waterproofness to a non-membrane fabric, but this is a significant improvement in making your foul-weather riding much more comfortable. This will also be your go-to tight for dry conditions. It's a no-compromise piece for all your cool-weather riding.

It's not just about the fabric, though. This is a serious training tight, so it gets our Progetto X² Air seamless seat pad. For total protection in the high-splash area of the inner leg, we use a fully reflective waterproof fabric that adds a high degree of nighttime safety to this tight. The tight is constructed with the bare minimum of seaming, which helps keep the rain out and also makes it more comfortable. This is the best all-around tight that we know how to make with today's technology, but we're still working to make it obsolete as soon as possible.

ROSSO CORSA

NANO FLEX PRO RACE BIBSHORT 4520521

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **205 g** (Large) | **12°-20°C / 54°-68°F**

progetto X² NANO FLEX

TEAM INEOS OFFICIAL PARTNER

WHAT IT IS

The original Omloop knee-length thermal short now in full Nano Flex 3G fabric for all conditions from dry to cold to wet.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Nano Flex 3G fabric is water repellent, stretchy and warm thanks to the luxuriously soft brushed inside
- Reduced seams for comfort and to prevent water from coming in during wet rides
- Knee-length cut for extra warmth that doesn't require a gripper elastic
- Mesh bibs don't add warmth to the upper body so you can dress for the conditions
- Progetto X² Air seamless seat pad for long hours in the saddle

01/21

010
BLACK

You could call this a "convergence" product. A few years back we pioneered the first Omloop thermal short, inspired by pro riders cutting off their knee warmers to just the bend of the knee at the Omloop Het Nieuwsblad on a brisk sunny morning. We set about making a bibshort cut right to the bend of the knee and realized that we could make it without a gripper elastic and that the extra 10 centimeters of fabric add a lot of warmth. Those first Omloop shorts were made for cool, dry conditions, like the race that inspired them, using our Thermoflex fabric.
Fast-forward to 2020 and the new third generation of our Nano Flex fabric is as soft, stretchy, breathable and warm as our Thermoflex fabric, so now we can make this short ideal for cool and dry conditions, but it's also excellent on wet days.
It's still a pro tool: this short is identical to the model supplied to Team Ineos.

progetto X²

TEAM INEOS OFFICIAL PARTNER

WHAT IT IS

This lightweight winter cool-weather tight keeps the upper leg warm but reduces coverage on the lower leg for a greater feeling of freedom and "just right" warmth.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Thermoflex upper portion, Nano Flex Light fabric below the knee
- Anatomic cut taken from the Free Aero Race Bibshort, Castelli's top race short as used by Team Ineos
- Lower leg is non-brushed to prevent overheating yet features a water-repellent finish to protect from road spray
- Progetto X² Air seamless seat pad

01/21

010
BLACK

COVERAGE FOR COOL WEATHER

We've been making our tights better and better for colder weather, and at the same time we've seen a drop-off in demand for ¾ knickers. So we fill that gap with the LW Bibtight. LW stands for Light Winter, the conditions that are becoming more and more common. So we build the upper portion to Team Ineos's specs with the Thermoflex fabric that keeps your thighs and intimate parts warm, and then we add a thinner non-brushed water-repelling Lycra® to the lower legs. To keep the lightweight feel we avoid zippers at the ankles, but we put in our Progetto X² Air seamless seat pad because we know this will be your go-to piece for long fall and spring rides.

CASTELLI COLLECTION

ENTRATA BIBTIGHT

4520524

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL | **255 g** (Large) | **6°-14°C / 43°-57°F**

KISS AIR²

WHAT IT IS

"Less is more" is the concept behind this tight. With quality fabrics, a soft seat pad and reduced seam patterning, this tight simply keeps you warm and comfortable on all but the coldest days.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Thermoflex fabric for warmth and comfort
- Kiss Air² seat pad is so good it's the choice of some of our pro riders
- Mesh bib straps
- Ankle zippers for easy on/off
- Reflective logo below knee
- Reflective flap over ankle zipper for extra visibility

01/21

010
BLACK

The Entrata Bibtight reflects the same obsessive drive for function, comfort and performance seen in all our tights, combined with fabrics and components that were top of the line a few years ago. Our Thermoflex fabric was considered a breakthrough, the best you could get, until a decade ago when we developed Nano Flex and added water repellency. If you don't ride in cold, wet conditions you'll appreciate the luxurious warmth and stretch of this fabric. The tight has minimal seams for comfort, and our Kiss Air² seat pad features generous padding and quite possibly the softest surface fabric in the business. It's everything you need to comfortably enjoy dry winter rides.

ROSSO CORSA

MID WEIGHT PRO JERSEY 4520520

SIZES / WEIGHT / TEMPERATURE RANGE

XS-3XL | **191 g** (Large) | **15°-21°C / 59°-70°F**

TEAM INEOS
OFFICIAL PARTNER

WHAT IT IS

The pros favorite: a warmer aero jersey for those cool days when you want to feel light and fast but welcome a little extra warmth. It has a remarkable comfort range, by itself in mild conditions or with a vest and arm warmers for much cooler days.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop pocket construction for better fit around waist and better pocket position
- Covered YKK® Vislon® zipper
- Reflective trim at bottom of pocket

PRO RIDERS' FAVORITE JERSEY?

Team Ineos riders asked for a mid-weight jersey for training and racing in cool weather. We worked hard to find that balance between warmth, moisture management and comfort, and we just happened to make this great aero-fitting jersey that's insanely comfortable and instantly became a rider favorite. Wear it with just a base layer on a slightly cool day, or add arm warmers and a vest and you have a super-comfortable outfit for cooler weather. Or even layer it under a Gabba in cold weather. It's a surprisingly versatile addition to your wardrobe.

CASTELLI COLLECTION

PURO 3 JERSEY 4518511

SIZES / WEIGHT / TEMPERATURE RANGE

XS-3XL | **288 g** (Large) | **14°-20°C / 57°-68°F**

WHAT IT IS

Our most popular jersey, thanks to the warmth and excellent moisture management of our Warmer brushed-fleece fabric; the clean, purposeful design; and the large reflectivity panels on the chest and below the pockets on the back.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Warmer fabric is a thickly brushed polyester fleece giving comfortable warmth with excellent moisture management
- Reflective panels on front and back
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper

WARMER, BRIGHTER

We've been working on the third generation of the Puro Jersey, our most popular winter jersey, to make it better than ever. We updated the fabric to make it warmer than last year, especially on the sleeves, and added reflective panels front and back for day and night visibility. Otherwise it's a no-nonsense technical piece aimed at comfort and warmth while making you look good.

BIBSHORT CHART

PROGETTO X² SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS AIR²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

PREMIO BLACK W BIBSHORT	FREE AERO RACE 4 W BIBSHORT	UNLIMITED W BIBSHORT	VELOCISSIMA 2 BIBSHORT	PRIMA BIBSHORT
Innovatively engineered for ultimate long-distance comfort, support, speed and durability.	Engineered for aerodynamics and WorldTour racing performance. The careful choice of fabrics and components and the obsessive attention to detail make this bibshort supremely comfortable even when you don't pin on a number.	Equally at home on tarmac or gravel, the Unlimited short knows no bounds. With four discreet hidden pockets it's ready for your next adventure.	Premium fabrics, a flattering cut, leg grippers from our top-of-the-line shorts and our everyday-comfort KISS Air² Donna pad make this short right for everything but longest rides.	Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our Kiss Air² seat pad and anatomic construction are brought together with an overall focus on durability.
PROGETTO X² SEAMLESS	PROGETTO X² SEAMLESS	PROGETTO X² SEAMLESS PROTEKT	KISS AIR²	KISS AIR²

The new women's Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bibshort ever. That's a big claim, but there's a lot of development in this short to back it up. So let's take a tour of the short.

The first thing you might notice is what's missing: the seams and multiple panels. We engineered a new fabric that changes depending on the needs over various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support. In the pelvis area, the compression and support increase to hold the seat pad firmly in place, and the fabric gets thicker to avoid any embarrassing transparency issues.

With this magical fabric we don't need to stitch separate panels together, which ensures more comfort and a better fit, as well as a sleek, sophisticated look.

The premium fabrics extend the bib straps. The perforated back keeps you cool and the edge is bonded so you don't feel the thickness of a stitched edge. The elastic straps have just enough modulus (return) to hold your shorts securely in place without cutting in to your shoulders.

The seat pad is our top-of-the-line women's-specific Progetto X² Air Seamless pad with four layers, two separate densities of foam and breathable perforated gel inserts in critical areas.

We've extended the attention to detail to the laser-etched logoing and subtle finishing. It looks as premium as it feels.

You can tell that every component, every stitch, every detail has been obsessed over. You'll not find a better bibshort.

WHAT IT IS

Equally at home on tarmac or gravel, the Unlimited Bibshort knows no bounds. With four discreet hidden pockets, it's ready for your next adventure.

PRODUCT FEATURES

- Made for fast riding on unlimited terrain
- 200 g/m² nylon/Lycra® fabric with best-in-class abrasion and tear resistance
- Double layer on sides to protect you in case you slide on loose gravel
- Hidden side pockets
- Minimalist mesh bib straps to keep you cool
- GIRO⁴ leg grippers to hold legs in place
- Progetto X² Air Seamless Donna seat pad for extra padding

010
BLACK

DON'T LIMIT YOURSELF

We made this short to meet Castelli's high standards for comfort and performance in a cycling short while adding a few extra features that come in handy for riding on any surface. You'll find our normal exceptional fit as well as the Progetto X² Air Seamless Donna seat pad, which provides generous anatomically placed padding with an exceptionally soft top layer.

What makes this short special is the extremely durable Unlimited Lycra® fabric. It has higher abrasion resistance and tear resistance while not compromising on stretch, moisture management or comfort.

In addition, we use double-layer side panels for the old track rider's trick of fabric-sliding-on-fabric should you fall. This short isn't really meant to be indestructible, but it significantly increases the chances that sliding out on gravel will mean you need to just brush yourself off rather than having to buy a new pair of shorts.

That second layer on the side panel also makes for convenient side pockets, with a flap over the top to prevent the contents from falling out.

For added convenience while riding on and off road, you have two mesh pockets on the lower back that compress gear next to your body to keep it from bouncing around,

This short adds durability and storage without compromising comfort — for unlimited amounts of fun.

WHAT IT IS

Premium fabrics, a flattering cut, leg grippers from our top-of-the-line shorts and our everyday-comfort KISS Air² Donna pad make this short right for everything but longest rides.

PRODUCT FEATURES

- Endurance Evolution fabric for a matte finish with high-modulus stretch
- Raw-edge leg ending eliminates sausage effect
- Vertical silicone strips hold leg ending in place
- High-visibility reflective patches at back of leg
- Mesh bibs
- Women's-specific KISS Air² seat pad for long-distance comfort

01/21

010
BLACK/DARK GRAY

SPEEDY ENDURANCE

This is our midrange performance short, great for a long endurance ride or a quick hour workout indoors or out. Our Endurance Evolution fabric is a high-modulus, very matte Lycra® fabric that feels extremely dry while providing just the right amount of compression. The waist construction eliminates stitching and elastic and lies completely flat. At the leg ending we use a raw-cut edge with vertical silicone strips just like on our top-of-the-line Premio shorts to keep the leg in place without the pressure that creates the dreaded sausage effect. A great short needs a great seat pad, and the women's-specific KISS Air² pad will keep you comfortable without being too bulky.

A BETTER SHORT

Shorts are an obsession at Castelli. They're the most vital piece of clothing and one of the hardest to get right.
Even though the Prima is our entry-level short, it shows that we won't compromise anything for comfort and performance. It starts with the women's-specific KISS Air² seat pad. Just the name gives an idea of the process of constant improvement, which started with a soft KISS pad that was improved by making it more breathable (Air) and then improved again in the latest update to use the softest-ever top fabric (2). It's ready for your next big ride indoors or out.
We've updated the fabric to the new Pro Dry Soft, which has a smooth matte finish that feels cool on the skin while being very supportive and quick to dry.
We wanted this short to be just right for many years to come, so little details like the reflective patches are stitched in instead of being glued on, and the GIRO³ elastic has the grip woven right into the fabric.
This attention to detail — go ahead and call it an obsession — is why Castelli's entry-level short is just a better short.

YOU WON'T EVEN NOTICE

We've been riding our bikes on gravel since before it was a thing, and we've always done it in our normal Castelli jerseys. The only complaint was that the occasional branch or vine could pull the delicate fabrics, and after a few rides the jersey wouldn't look exactly pristine.

That's what we focused on with the Unlimited Jersey. It compromises nothing in terms of fit, comfort, moisture management and light weight, but we've used fabrics that offer additional protection from snags. The arms and shoulders are most exposed, and here we've used a stretch fabric that fits great yet is extremely protective. The main body fabric is closer to a traditional jersey fabric but fared best in our snag and Velcro tests.

We don't call this a gravel jersey because it's equally at home on the asphalt, but if you do take it on your favorite trail it'll hold up better than any road jersey, and better than most off-road gear.

964
AGATE BLUE

And now for something totally different. We've created a performance jacquard-knit fabric. It took a while to get there because we weren't willing to compromise fit, stretch, moisture management or comfort. It still feels like a Castelli jersey, but with the design actually integrated into the fabric. Beyond the fabric, we've finished this jersey with thoughtful design touches like the collar that tapers to the zipper, Castelli's drop-pocket design with reflective piping, and a raw-cut elastic sleeve ending.

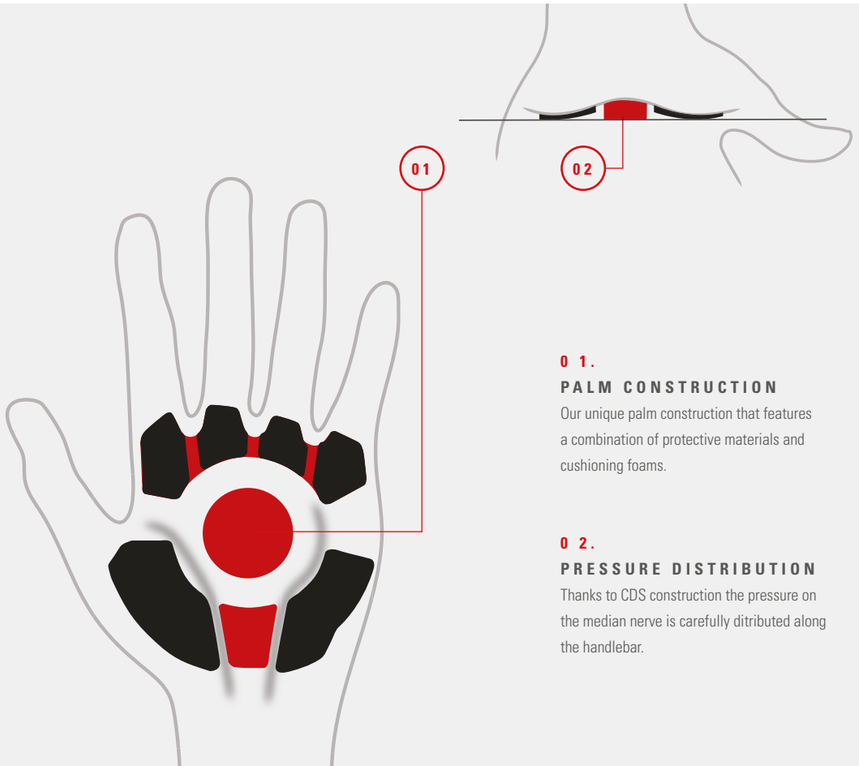
CDS
CASTELLIDAMPINGSYSTEM

The Castelli Damping System was designed and engineered to address a common problem many riders suffer from: discomfort and occasional numbness in the hands associated with extended periods of time gripping the handlebar. We carefully mapped key parts of the hand in order to create optimal protection from steady road vibrations. The result is our unique palm construction that features a combination of protective materials and cushioning foams. The Castelli Damping System is applied across many styles in our glove collection and provides outstanding control and comfort during training or racing.



01.
PALM CONSTRUCTION
Our unique palm construction that features a combination of protective materials and cushioning foams.

02.
PRESSURE DISTRIBUTION
Thanks to CDS construction the pressure on the median nerve is carefully ditributed along the handlebar.

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL | **159 g** (Small) | **14°-20°C / 57°-68°F**

GORE-TEX INFINIUM | ROS RAIN OR SHINE | NANO FLEX

WHAT IT IS

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Best race or training vest with windproof front and breathable rain-repelling back
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front
- Nano Flex Light Woven on back for breathable stretch with good water protection
- YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 2 rear pockets with pump sleeve
- Gabba-style dropped tail with reflective panel

LIGHT BLACK

PERFETTO VEST IS NOW EVEN MORE PERFECT

The Perfetto Vest has been a favorite with everyone from our pro riders to Castelli staff to performance cyclists everywhere. But we wanted to make it even more perfect, so we developed a new exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric that is both lighter and more water repellent than the old fabric while maintaining the stretch and breathability. We matched it up with better water repellency in the back while maintaining the breathability, and further improved details like the back pockets and reflectivity. A more perfect Perfetto Vest.

GORE-TEX INFINIUM | ROS RAIN OR SHINE | NANO FLEX

WHAT IT IS

With just a base layer it's a wind-protection jersey for mild conditions. Alternatively, use it like a vest over a jersey with added protection over your shoulders. Lightweight, breathable front wind protection with allover water repellency.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Lightest Castelli short-sleeve wind protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front and sleeves
- Nano Flex Light Woven on back for breathable stretch with good water protection
- YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 2 rear pockets with pump sleeve
- Gabba-style dropped tail with reflective panel

288
BRILLIANT PINK

LIGHTER, MORE PACKABLE, MORE BREATHABLE

The Perfetto Light started life as a request from our pro riders: "I want to wear the Gabba all the time, but sometimes it's too hot." So a somewhat lighter and more breathable Gabba became the Perfetto Light.
The Perfetto Light is improved in nearly every way: it's now lighter, with thinner fabrics on the front and back, which make it easier to stuff in a pocket. It has both better rain protection and improved breathability. It has two larger pockets that better complement the three pockets on the jersey you wear underneath this jacket.
The new Perfetto Light is closer to a Perfetto Vest with sleeves, which makes it perfect for your spring and fall training and racing in cool conditions.

IDRO W JACKET 4518049

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL | **89 g** (Small) | **6°-20°C / 43°-68°F**

WHAT IT IS

100% waterproof protection is only the start: it's the lightest, most compact, most breathable waterproof jacket we've ever made. It's so versatile you'll use it as the shell layer any time you need to keep out wind or rain, yet when not in use it fills only half of a jersey pocket.

WHEATHER CONDITIONS

PRODUCT FEATURES

- GORE-TEX® SHAKEDRY™ 2-layer waterproof breathable fabric
- YKK® waterproof Vislon® zipper
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective Castelli wordmark
- Packs up small to easily store in jersey pocket

010
BLACK

UNBELIEVABLY LIGHT

A jacket that weighs less than a jersey? Real Gore-Tex®, no less? And it packs up to fit in half a jersey pocket? And it's the most breathable Gore-Tex® ever? Hard to believe, but it's all true. This jacket is a game changer. It's fully waterproof, as you expect from Gore-Tex®, but with its exceptional breathability and packability you'll find that it replaces all your other shell jackets. If your ride has the slightest chance of rain or a long descent or the possibility of temperatures dropping, this jacket will automatically go in your pocket. You can confidently do longer rides in conditions that you would have avoided with all your old jackets. While you can get this fabric from other brands, you can't get the Castelli fit, design and construction.

CASTELLI COLLECTION

EMERGENCY W JACKET 4517538

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL | **149 g** (Small) | **6°-15°C / 43°-59°F**

WHAT IT IS

Compact and fully waterproof, this jacket folds up small so it's ready for any emergency. It's not as breathable as the Idro W Jacket, but it's good for lower-intensity rides or cold descents.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Innovative "gutters" drain water away from hands and off back
- Waterproof zipper and seam sealing keep all water out

032
YELLOW FLUO

READY IN CASE OF EMERGENCY

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. This jacket is an emergency piece, so we knew you wouldn't want to break the bank with it, but the only real compromise compared to our top-of-the-line offerings is in breathability. We didn't make this for an all-day rain ride, but it's just right for your next emergency.

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to reinvent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

CASTELLI COLLECTION

ARIA W VEST

4520088

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL | **60 g** (Small) | **12°-20°C / 54°-68°F**

WHAT IT IS

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

WHEATHER CONDITIONS

PRODUCT FEATURES

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket

SILVER GRAY

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

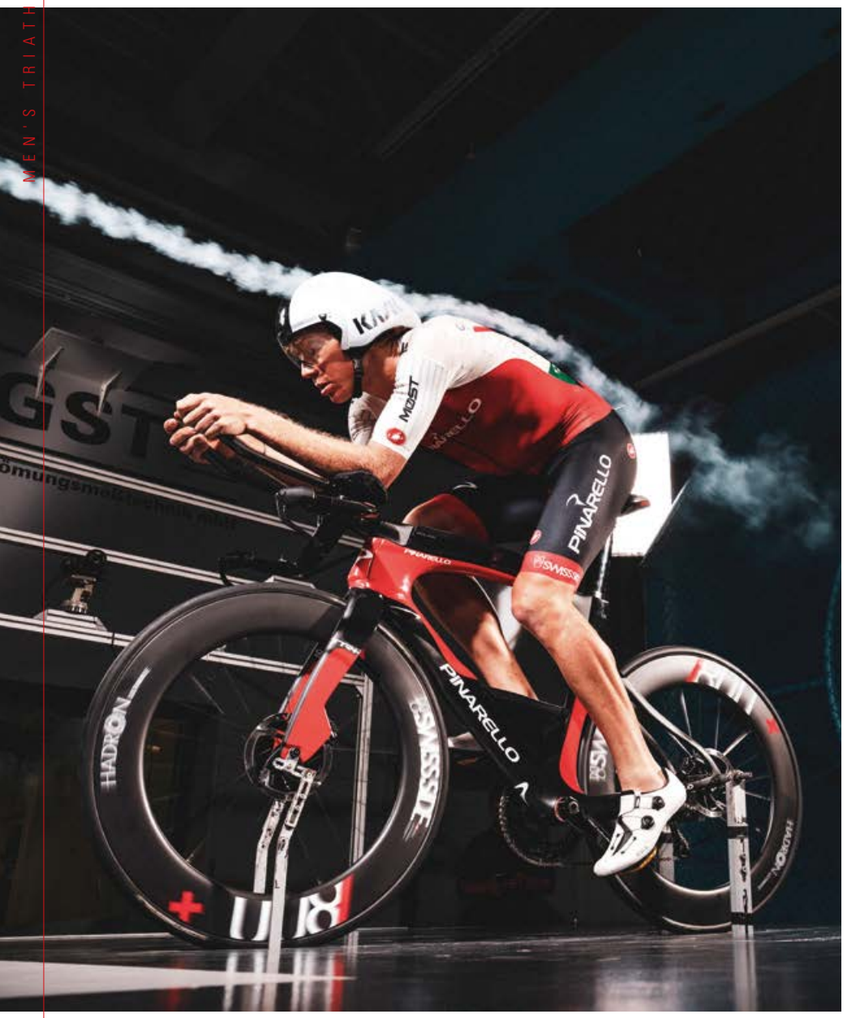
MEN'S TRIATHLON



SET A NEW PERSONAL BEST

This suit, which set a new course record at Kona in its first race with Cameron Wurf, uses everything we know to make your next long-distance race your fastest ever.

In 2016 we started our aero research project with the Norwegian Technical University in Trondheim. Besides having a couple of brilliant professors and PhD students to come up with ideas and do the basic research, they have a couple of wind tunnels, rapid prototyping capabilities, CFD analysis and a true desire to make fast stuff. The first big success from the research was Team Sky's TT suit that placed four riders in the top eight at the opening Tour de France time trial. Then the UCI made it illegal.

So this suit isn't UCI legal (but neither is your bike). It's faster than the pro cyclists' suits and very illegal due to the silicone ribs in the arms. The main body fabric is an impossibly light 50 denier — usually in sports clothing 40 denier is considered ultrafine. The legs and sleeves are long for aerodynamics, while the light fabrics are great for dealing with heat since they're thin enough to not get weighed down, yet the 8% Lycra® content holds a bit of moisture next to your skin for rapid cooling. The insane stretch allows us to make something that truly fits like a second skin on the bike but that doesn't restrict in any way on the swim or run.

Our KISS Tri pad offers some welcome padding while you're on the bike but is thin enough to not bother you on the run.

This suit offers real time savings on the bike leg while providing cooling and comfort on the run, but it was made with the expectation of being worn under a swimskin or wetsuit for the swim. It's optimized for high speeds — top age groupers or pro athletes, or anyone looking to set a new PR.

ROSSO CORSA

PR SPEED SUIT 8620091

SIZES / WEIGHT

S-3XL | **251 g** (Large) | KISS TRI

WHAT IT IS

The fastest long-distance race suit Castelli has ever made. The sleeve texture saves minutes on the bike leg, while the overall suit excels in both speed and comfort. Record holder for fastest-ever Kona bike split with Cam Wurf, 2019.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- Pro-level long-distance race suit to deliver real aero benefits on the bike while providing comfort and cooling on the run
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- Support short portion to keep everything in place on the run
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

KISS TRI

WHAT IT IS

Performance race suit ideal for 70.3 and full-distance racing. Aerodynamics for speed, without compromising pockets and comfort to help you through the big race.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- Second-generation Sanremo short sleeve suit is faster than ever
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim, while also allowing for easier nature breaks or opening up for extra-hot runs
- 2 rear pockets lie flat in the swim but allow generous room for nutrition
- New short construction fits more securely with more muscle support
- GIRO[4] flat leg grippers on longer legs for maximum aerodynamics
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

THE GOOD-AT-EVERYTHING RACE SUIT

The best triathletes are the ones who are good at everything. That's why we put so much into this suit.
Let's start in reverse order:
Run: At this point in the race, fatigue sets in. You'll love the comfort of this suit. The front Samremo opening construction doesn't pull you forward, and it makes pee stops easier and lets you open it up when you feel too hot. The fabrics are quick drying, light and cool. The seat pad that felt so good on the bike is small enough you hardly feel it. The two rear pockets compress your gels so they don't bounce around. The long legs with GIRO[4] leg gripper elastic don't ride up and don't bind. Maybe you'll even notice that you don't have as many burning spots where you've been chafed raw. Somehow, you're thinking that comfort gives you an extra push, some extra speed.
Bike: You relish these couple of hours to put some distance into the other guys. This suit benefits from the aero research of Castelli's Pro PR suit but is tuned for speeds ranging from medium to high. The legs and sleeves provide excellent coverage while the back gives decent sun protection and the two pockets hold plenty of nutrition. And you appreciate the Castelli know-how in seat pad construction. Put your head down and pass a few more riders.
Swim: The reduced seaming and long arms and legs help you cut through the water while the pockets lie flat and don't catch water. The fit is snug and the lightweight fabrics don't hold as much water. The shoulder area is extra stretchy for freedom of movement even under a wetsuit or swimskin.

ROSSO CORSA

FREE SANREMO SUIT SLEEVELESS 8618108

SIZES / WEIGHT

S-3XL | **182 g** (Large)

KISS TRI

WHAT IT IS

All the benefits of the Sanremo Short Sleeve Suit but in a sleeveless version for the triathlete who still prefers sleeveless.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- SpeedFreak ventilated race fabric on front of upper portion
- Velocity mesh back gives wind-tunnel-proven speed on the bike
- YKK® Camlock® zipper
- FreeAero 2 hydro- and aero-optimized pockets
- Soft-finish armholes to reduce chafing
- Castelli-innovated Sanremo front construction allows easy nature breaks and ventilation in one-piece race suit
- Instadry Speed fabric on short is fast in the swim with minimal water absorption
- KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
- 2 small pockets on hip for nutrition during run
- GIRO Air leg gripper elastic

870
SILVER GRAY/BRILLIANT ORANGE

THE LONG DISTANCE 1 PIECE SUIT

This suit is for you if you race 70.3 and Ironman distance and like the convenience of a 2 piece suit but the comfort of a 1 piece. The Sanremo front makes it easy to ventilate, easy to respond when nature calls, and maintains the aero performance of a 2 piece suit. The full pockets on the back lay flat for the swim while providing plenty of space for carrying nutrition on the bike or run.

- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- Giro³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

870
SILVER GRAY/BRILLIANT ORANGE

THE RIGHT RACE JERSEY FOR SPEED AND COMFORT

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three.
The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around.
The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run.
Sun protection ... well, you've trained untold hours for this day. We focus on speed, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8.
Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

SPRINT AND SHORT DISTANCE SUIT FOR TOKYO

We set out to design this suit to be prepared for any battle on the ITU circuit. In ITU racing you can't afford losing valuable seconds in the water due to bad equipment. Therefore we put in everything you'd expect from a suit that has to prove suitability on the highest level of pro racing. Hydrodynamic properties lay the foundations for the first discipline. High performance fabrics and optimized patterning for best aerodynamics and comfort on the bike till the finish line.

KISS TRI

WHAT IT IS

The fastest long-distance race suit Castelli has ever made. The sleeve texture saves minutes on the bike leg, while the overall suit excels in both speed and comfort. Fastest female bike split with Laura Philipp in Kona 2019.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- Pro-level long-distance race suit to deliver real aero benefits on the bike while providing comfort and cooling on the run
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

LAPIS BLUE

SET A NEW PERSONAL BEST

This suit, which set a new course record at Kona in its first race with Cameron Wurf, uses everything we know to make your next long-distance race your fastest ever.

In 2016 we started our aero research project with the Norwegian Technical University in Trondheim. Besides having a couple of brilliant professors and PhD students to come up with ideas and do the basic research, they have a couple of wind tunnels, rapid prototyping capabilities, CFD analysis and a true desire to make fast stuff. The first big success from the research was Team Sky's TT suit that placed four riders in the top eight at the opening Tour de France time trial. Then the UCI made it illegal.

So this suit isn't UCI legal (but neither is your bike). It's faster than the pro cyclists' suits and very illegal due to the silicone ribs in the arms. The main body fabric is an impossibly light 50 denier — usually in sports clothing 40 denier is considered ultrafine. The legs and sleeves are long for aerodynamics, while the light fabrics are great for dealing with heat since they're thin enough to not get weighed down, yet the 8% Lycra® content holds a bit of moisture next to your skin for rapid cooling. The insane stretch allows us to make something that truly fits like a second skin on the bike but that doesn't restrict in any way on the swim or run.

Our KISS Tri pad offers some welcome padding while you're on the bike but is thin enough to not bother you on the run.

This suit offers real time savings on the bike leg while providing cooling and comfort on the run, but it was made with the expectation of being worn under a swimskin or wetsuit for the swim. It's optimized for high speeds — top age groupers or pro athletes, or anyone looking to set a new PR.

SIZES / WEIGHT

XS-XL | **174 g** (Large)

KISS TRI

WHAT IT IS

Performance race suit ideal for 70.3 and full-distance racing. Aerodynamics for speed, without compromising pockets and comfort to help you through the big race.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- Second-generation Sanremo short sleeve suit is faster than ever
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim
- 2 rear pockets lie flat in the swim but allow generous room for nutrition
- New short construction fits more securely with more muscle support
- GIRO[4] flat leg grippers on longer legs for maximum aerodynamics
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

MULTICOLOR/BLACK

FOR OLYMPIC TO IRONMAN DISTANCES

We made this suit to be compliant with ITU rules but with the fabrics, aerodynamics and cargo-carrying capacity to be ideal for 70.3 races, and even to win the odd Ironman World Championships, like Fred Van Lierde did in this suit in 2013. It has the fabrics, the pockets and the KISS Tri seat pad of our Free long-distance race suits to offer exceptional performance in a wide variety of races.

FREE SPEED 2 W RACE TOP 8620097

SIZES / WEIGHT

XS-XL | **96 g** (Small)

WHAT IT IS

Speed top for full-distance racing, or even to use just for the bike leg for improved aero performance. Includes a fastener to attach to shorts.

TRIATHLON DISCIPLINES

PRODUCT FEATURES

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- Giro³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

101
WHITE/BLACK

THE RIGHT RACE JERSEY FOR SPEED AND COMFORT

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three.

The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around.

The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run.

Sun protection ... well, you've trained untold hours for this day. We focus on speed, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8.

Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

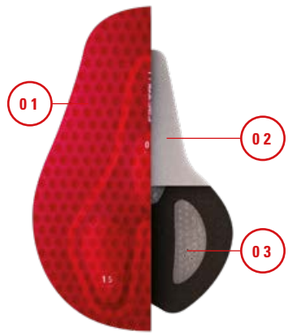
PROGETTO X² SEAMLESS

01.
SKIN CARE LAYER
—
The Progetto X² Air Seamless seat pad is used to protect your skin while providing just the right level of padding for maximum comfort, no matter how long your epic ride is.

02.
SEAMLESS INTEGRATED TECHNOLOGY CUSHIONING LAYER
—
A separate component provides no-compromise cushioning, with Castelli's infinitely variable thickness to bring the right shape to the right part of the body: thicker under the sit bones and thinner on the sides and under the perineum.

03.
VISCOUS COMFORT INSERTS
—
Perforated viscous padding is added under the highly sensitive ischial and perineum pressure areas.

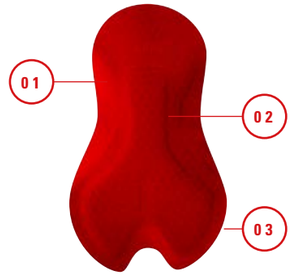


PROGETTO X² SEAMLESS

01.
SKIN CARE LAYER
—
The Progetto X² Air Seamless seat pad is used to protect your skin while providing just the right level of padding for maximum comfort, no matter how long your epic ride is.

02.
SEAMLESS INTEGRATED TECHNOLOGY CUSHIONING LAYER
—
A separate component provides no-compromise cushioning, with Castelli's infinitely variable thickness to bring the right shape to the right part of the body: thicker under the sit bones and thinner on the sides and under the perineum.

03.
VISCOUS COMFORT INSERTS
—
Perforated viscous padding is added under the highly sensitive ischial and perineum pressure areas.

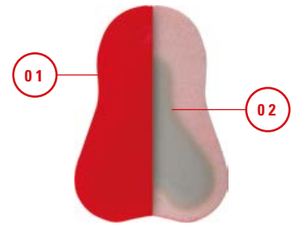


KISS AIR²

01.
SEAMLESS SKIN CARE LAYER
—
The softest-ever fabric next to your skin for immediate and long-lasting comfort. Seamlessly engineered to reduce chafing and abrasion. Stretchy to move with you.

02.
DUAL DENSITY, INFINITELY VARIABLE THICKNESS
—
Dual-density infinitely variable thickness gives you the perfect cushioning in every part of the pad. Maximum thickness and density in the ischial zone, tapering to moderate thickness under the perineum and minimum thickness at the perimeter.

03.
ANATOMICAL SHAPE
—
Comfort is further enhanced by the creation of a perfect interface to your body during every pedal stroke.



KISS TRI

01.
SEAMLESS SKIN CARE LAYER
—
A super soft, brushed microfiber top that maximizes comfort and fit. Seamlessly engineered to eliminate chafing and abrasion. Flexible to move with you. Bacteriostatic treatment to avoid saddle sores and infection

02.
MULTI DENSITY FOAM
—
Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.

A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
